Description	Price	Quantity	Subtotal
Architectural Visualization Services(360 Aerial View) :			
3D Modeling: Creation of detailed and accurate three-dimensional representations of your architectural designs. Texturing & Lighting: Application of realistic textures and lighting to enhance the visual appeal and authenticity of the models. Post-Production: Refinement and enhancement of visual outputs to achieve a polished and professional final presentation.	₹25,000	1	₹25,000
Subtotal			₹25,000
GST (18%)			₹4,500
Grand Total			₹29,500

Terms and Conditions

1. GST will be applicable at 18%.
2. All 2D plans provided by the architect must be submitted in AutoCAD format.
3. Revisions to the AutoCAD files after project commencement will incur additional charges.
4. Additional views will be charged at ₹25,000 per view.
5. Clients must finalize all 3D models and materials before high-resolution rendering. Any changes or re-rendering after this stage will attract extra charges.
6. Re-rendering finalized images will be charged at ₹25,000 per image.
7. Any additions to the initial scope of work after the agreement has been signed will be charged separately.
8. If the project is canceled for any reason, charges will apply for the completed work based on actuals.
9. Delays in approvals or payments may impact the agreed submission timelines.

PAYMENT TERMS:

- 40% advance payment to be made along with the written work order.
- 30% payment upon approval of camera angles.
- 20% Major look & feel review + camera angle finalization.
- 10% All final high-resolution files are shared after this payment.
